

Isaiah Nathaniel, CPHIMS

Isaiah Nathaniel is a successful business executive, entrepreneur, film producer and director who is the Vice President and Chief Information Officer of Delaware Valley Community Health, Inc., (DVCH) a 56-million-dollar non-profit Ambulatory Healthcare Company FQHC (Federally Qualified Health Center.) Their mission is to serve the underserved with Healthcare regardless of their ability to pay.

Numerically, that turns DVCH into 50,085 patients, 150,000 visits, 400 employees, and 79 healthcare providers with 9 locations in the Delaware Valley. Isaiah is also the owner and CEO of Calcom Technologies a premier Informational Technology company based out of Philadelphia, Pa. He is also the owner and CEO of MadOptics Productions, a film production company that focuses on films, sports, and photography. Recently noted Isaiah received national press participating in a webinar with US News and World Report on Improving Health Equity and Access Through Telehealth and New Technologies. In addition, he also received national attention from media outlet Tech Target for significant and success pivot of Healthcare IT operations during the COVID-19 pandemic using hyper-convergence technology. Most recently Isaiah was awarded the 2021 Health Information and Management Systems Society, (HIMSS) Changemaker award. In addition he also received the 2019 Minority Business Leader award from the Philadelphia Business Journal. He In addition, he received national press as the executive producer, writer, and director of 16th and Philly, a documentary film released February 2014. He is also a Certified Professional in Healthcare Information and Management Systems as well as an official member of the invitation only Forbes® Technology Council.

Educated at Central High School in Philadelphia, Pa and then Delaware State University where he earned a BS in Management Information Systems, he also was a four-year letterman for the Men's Basketball team. He has also graduated from the prestigious DiverseForce OnBoards Leadership and Board Governance program given at the University of Pennsylvania.

His hobbies and interest include basketball, to which he still plays, road cycling, reading and chess. He is a big advocate for bringing the next generation along and proudly boasts that he is a product of his "failures."

At DVCH Isaiah is responsible for developing and executing the overall information system strategy in support of the business plan and strategic direction of the organization, specifically in the areas of security, and maintenance of the information technology network, integrated electronic health record, electronic practice management, and electronic dental record hardware and systems across Delaware Valley Community Health's multi clinic integrated healthcare network. Provide strategic leadership by articulating information systems needs and plans to the executive team, shareholders and board of directors.

Calcom Technologies is a full-service IT company provides traditional IT services including web/graphic design, social media services, and disaster recovery services to the small business sector. Calcom Technologies in its early beginning stages primarily focused on servicing, repairing, and maintaining computers to which it had great success growing its base and reputation one service call at a time. As they continued to grow, they began to offer additional services, offering new and existing clients a one-stop shop for all your computing needs. Today Calcom Technologies is one of the area's most respected IT/computer consulting firms with a heavy base in the Philadelphia metropolitan area.

MadOptics Productions is a unique production company, with a focus on digital motion and still photography, with an emphasis on sports. We craft your message visually through a creative and strategic lens, delivering it effectively and with maximum impact. A full-service videography company that aims to help our clients achieve their dreams of seeing the special moments in their lives captured in beautiful, high-definition video.

In addition to speaking at Universities and events, board service roles, he has been featured in or appeared in many publications including:
